## Committed to *Community*

It's here! A new look that tells our story of what being Committed to Community means to Genisys. Our main goal was to create a website page that provides context & meaning for our partnerships and involvement in our communities.

We believe that a cornerstone of community action lies in giving back. We focus on areas of social investment, diversity, equity, and inclusion, and volunteering to uphold the role of community partner. We work to ensure each branch in our footprint is supported based on the area's unique needs, positively impacting the well-being of our community members.

We want to share with you how we are doing that & how to get involved in your community. Take a look at our new page for Committed to Community.
